NSENG Talent Recruitment Program

NSENG was formed in 2010 by Marty Gilbert and has grown almost entirely by referrals from members, outplacement firms and recruiters. It is comprised of over 8,000 Chicago area members, each of whom possess an impressive array of work experience. The organization is expanding by 5 new members each day with more than 10 individuals landing new jobs each week across a broad range of industries and roles that span sales, marketing, finance, IT, operations, HR, general management, product development, supply chain, legal, project management and more. The quality of individuals in the group is inspiring which is why talent acquisition teams and executive search firms are turning to NSENG to complement their candidate recruitment efforts.

To assist these organizations, NSENG's Talent Recruitment Program makes their open jobs visible to all NSENG members through the following vehicles (items #1-3 are packaged together):

1. NSENG posts your open positions onto the **weekly NSENG newsletter** that is distributed to every member.
 - The same post appears for at least 2 consecutive weeks and is linked to your company's selected webpage.
2. NSENG posts your open positions onto the **home page of the NSENG website**.
 - Each position appears for 7 consecutive days each month and is linked to your company's selected webpage.
3. NSENG posts your open positions onto the **NSENG LinkedIn group** twice a month.
 - Each position can include a description of up to 1,200 characters and is linked to your company's webpage.
4. Companies can **sponsor an NSENG meeting or webinar** (this is available to companies who purchase items #1-3).
 - Sponsors get 5 minutes at the beginning of an event to present their company and open positions.
5. NSENG can act as a **contingent talent recruiter**.
 - NSENG sources, screens and presents qualified candidates on a flat fee basis if hired.
